

## Manual for Configuring iOS devices without certificate

**Step1:** Go To “Settings”.

Step2: Tap/Click on “Wi-Fi”.

**Step3:** Choose the network to connect. For eg: "SARAS".

**Step4:** Select the mode as “Automatic” and then enter NIC mail ID (i.e. without @nic.in) as username and NIC mail password as Wi-Fi password and then click on Join.

Enter the password for "SARAS"
